

Giving Shape to Ideas

Increase the Power of Your Workflow with Konica Minolta's Seamless Integration with Worldox.

connectors

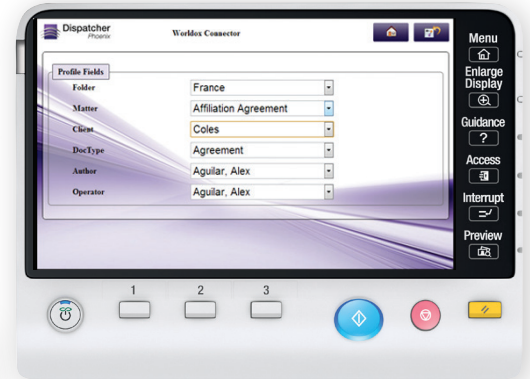

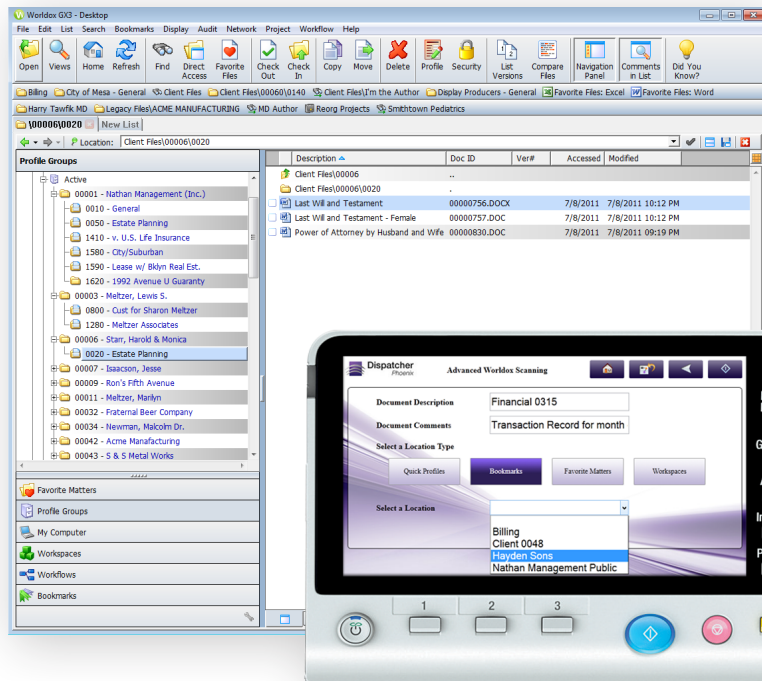

**Simplify.** In companies and organizations throughout the country, business professionals are struggling to keep up with the amount of documents that need to be organized, accessed, processed, and shared each day. Many information-driven industries, such as law firms and financial services firms, rely on document management systems (DMS), such as Worldox® from World Software®. Konica Minolta now offers a Worldox Connector that harnesses the full potential of the bizhub® MFP by connecting directly to Worldox from the MFP panel. The Worldox Connector is offered as part of the Dispatcher® Phoenix family of automated document workflow products, which allows you to take advantage of additional advanced capture and processing features. Now you can scan, index, process and upload files directly into Worldox – either at the MFP or automatically!

The Worldox Connector makes it easier than ever to store documents in Worldox for instant file accessibility, sharing, and retrieval. And, to manage your infrastructure and maintain your system, Konica Minolta's All Covered IT Services are available as well – combining proven expertise and a best-in-class solution that your firm can count on.

# Access, Share, Secure.

Increase the power of your workflow with the easy-to-use Worldox Connector. You can process your files before uploading them to Worldox, version GX2 or higher\*, or simply scan directly into Worldox from the bizhub MFP control panel. Once documents are securely stored in Worldox, you can easily manage, search for, and retrieve your documents, maximizing your business efficiencies and saving money.

## Speedy Indexing and Uploading

The Worldox Connector comes with a variety of time-saving features that make storing your documents in Worldox faster and easier than ever, including:

- Auto-populating index fields with Worldox data.
- Allowing Worldox to auto-generate a name for your scanned documents.

## Store Documents in Worldox – Your Way

You can quickly upload both paper-based and electronic documents into Worldox for a flexible and fast solution:

- From the MFP: Log into Worldox, index, process, and upload your documents – all at your bizhub MFP control panel.
- Automated: Distribute documents to Worldox automatically through the use of an automated workflow.

Both connection methods allow you to immediately view and access the Worldox Profiles that are available to you.

\* The Dispatcher Phoenix Worldox Connector supports:  
– Worldox GX3  
– Worldox GX2 via the Worldox GX3 Bridge System (available free of charge for Worldox GX2 customers with active maintenance).

For more information on the Worldox GX3 Bridge, email Worldox Support at: [support@worldox.com](mailto:support@worldox.com).

## The Dispatcher Phoenix Family of Workflow Automation Solutions

Dispatcher Phoenix is a family of automated document workflow solutions from Konica Minolta, available in several versions to suit different needs.

- **Dispatcher Phoenix Foundations** is perfect for small to mid-size business needs – an affordable solution with powerful features for scanning, routing and processing.
- **Dispatcher Phoenix Professional** adds more document processing power and sophisticated tools for rules-based categorizing and distributing documents.
- Other specialized versions of Dispatcher Phoenix provide targeted benefits for specific industries, including **Legal, Healthcare, Education, Finance, and Government**.
- Dispatcher Phoenix also offers connectors to other popular content management systems, including OnBase® by Hyland, Microsoft SharePoint®, Box®, Dropbox®, WebDAV, Microsoft OneDrive®, FilesAnywhere®, Konica Minolta's FileAssist, etc.
- All versions of Dispatcher Phoenix include a graphical **Workflow Builder** tool, an intuitive **Workflow Scheduler**, MFP integration with visually enhanced display, document indexing and folder browsing at the MFP, and robust authentication capabilities.
- Add-in Options for enhanced speed and efficiency include the Release2Me print release system, forms processing, advanced OCR, barcode processing, redaction, advanced job routing, and much more.

## Advanced Features.

With Dispatcher Phoenix, you can scan directly from the MFP as well as collect files from a variety of other sources, such as folders and MFP User Boxes. Repetitive document processing tasks can be automated before files are stored in Worldox. You can:

- Rename scanned image files
- Convert files to Microsoft® Office (Word, Excel, PowerPoint, etc.)
- Convert files to PDF format (PDF Searchable, PDF/A, etc.)
- Bates stamp
- Redact/Highlight
- Much more
