INCREASE YOUR PRODUCTIVITY
CONNECT TO LASERFICHE

In order to decrease dependence on paper documents and mitigate risk, organizations are searching for strategic ways to power digital transformation. Laserfiche enables organizations to seamlessly manage documents to optimize costs and power innovation. Businesses in a variety of industries depend on Laserfiche to protect their institutional data while enabling informed decision making and collaboration. With Konica Minolta's Dispatcher Phoenix Laserfiche Connector, files can be collected, indexed, processed, and then sent to Laserfiche—all automatically. This powerful connector allows employees, salespeople, mobile professionals, and collaborators in government, legal, healthcare, education, and other specialized markets to have easier access to their essential data.
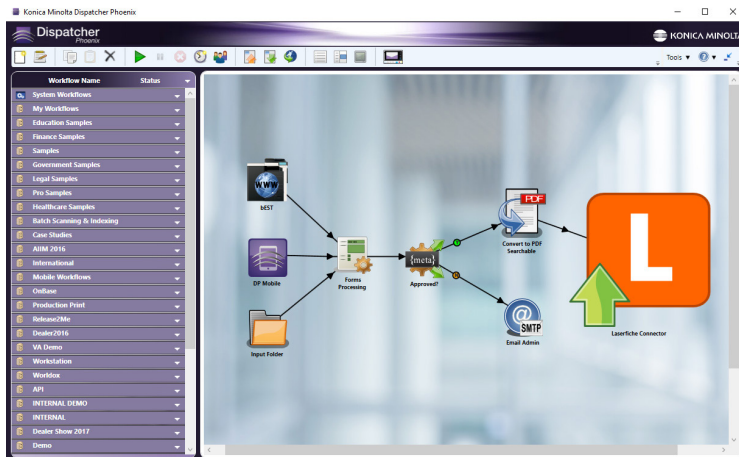

Dispatcher
Phoenix

A FULLY AUTOMATED WORKFLOW

Dispatcher Phoenix is Konica Minolta's award-winning document workflow solution that streamlines document processing, routing, and printing. With the Laserfiche Connector, businesses can fully integrate their document workflow with Laserfiche, making it easy to capture documents from a variety of sources, perform advanced processing tasks on them, and then route the processed files directly into a target Laserfiche repository. By fully automating and simplifying your document workflows, your employees can have time for the work that matters and are able to make faster, more insightful decisions to promote growth for your organization.

ESSENTIAL FOR HIGHER PRODUCTIVITY

Automatically connect to Laserfiche from any Dispatcher Phoenix workflow and save time by automating manual processing and formatting tasks before your files are stored. With Dispatcher Phoenix, repetitive and redundant document processing tasks can be automated including:

- Automatically annotate and Bates stamp files
- Convert files to PDF formats, including searchable PDF and PDF/A
- Convert files to Microsoft Office formats, such as Microsoft Word and Excel
- Process documents based on standard or 2D barcodes
- Redact to permanently remove sensitive information
- Highlight and strikeout for text mark-up
- Extract document metadata into a separate file
- Connect to an ODBC-compliant database for automated indexing
- Watermark files with custom images
- And more!

The Dispatcher Phoenix Family of Workflow Automation Solutions

Dispatcher Phoenix is a family of automated document workflow solutions from Konica Minolta, available in several versions to suit different needs.

- **Dispatcher Phoenix Foundations** is perfect for small to mid-size business needs – an affordable solution with powerful features for scanning, routing and processing.

- **Dispatcher Phoenix Professional** adds more document processing power and sophisticated tools for rules-based categorizing and distributing documents.

- Other specialized versions of Dispatcher Phoenix provide targeted benefits for specific industries, including **Legal, Healthcare, Education, Finance,** and **Government.**

- Dispatcher Phoenix also offers connectors to other popular content management systems, including OnBase® by Hyland, Microsoft SharePoint®, Box®, Dropbox®, WebDAV, Microsoft OneDrive®, FilesAnywhere®, Konica Minolta's FileAssist, etc.

- All versions of Dispatcher Phoenix include a graphical **Workflow Builder** tool, an intuitive **Workflow Scheduler**, MFP integration with visually enhanced display, document indexing and folder browsing at the MFP, and robust authentication capabilities.

- Add-in Options for enhanced speed and efficiency include the Release2Me print release system, forms processing, advanced OCR, barcode processing, redaction, advanced job routing, and much more.
