Registering ID Cards Is Now as Simple as Going Online.

**Dispatcher® Phoenix**

## Secure.

Many companies use ID smart cards to access buildings and/or equipment, including MFPs. This kind of secure authentication adds value to any organization within a variety of industries, from government to healthcare, education and more, by preventing unauthorized access to critical information and keeping track of equipment and facility usage.

Konica Minolta is making it easy to register these smart cards. As part of our Dispatcher Phoenix family of workflow automation products, we now offer an easy-to-use, web-based Card Registration Tool that allows company administrators to quickly register ID swipe cards for their employees. Once a card is registered, it can be used to log into the MFP as well as access Dispatcher Phoenix via single sign-on. It's that simple.

Smart Card Registration with Dispatcher Phoenix is just another way Konica Minolta is giving shape to ideas that secure and simplify your business.

# A Card Registration Tool That's
## Convenient, Secure and Powerful.

Part of the Dispatcher Phoenix Web interface, our Card Registration Tool makes it simple to register ID cards to specific users in LDAP. All you have to do is attach a card reader to your PC and access the Card Registration Tool online. Then, from one interface, you can:

- Search for users in LDAP
- Register cards to selected users by tapping the cards on the card reader
- Unregister cards
- Scan a card to see if it's already been registered to another user

### Benefits

- Quickly register ID swipe cards, including HID Proximity, iCLASS, MIFARE and more
- Easily accessible from Dispatcher Phoenix Web
- Registered cards can be used to log into the MFP and Dispatcher Phoenix
- Includes Card Lookup feature to verify registration information for each card

### Dispatcher Phoenix Editions

- **Foundations:** perfect for small to mid-size business needs, with powerful features for scanning, routing and processing
- **Professional:** adds more document processing power and sophisticated tools for rules-based distribution throughout large organizations
- **Legal:** integrated workflow solutions to speed and simplify the processing of legal documents
- **Education:** simplifies document processing to leverage the power of educators and administrators
- **Healthcare:** advanced document workflow capabilities for scanning, processing and sharing medical records
- **Finance:** document solutions for secure capturing, processing and distribution of financial documents
- **Government:** helps state and federal agencies manage documents with greater security and accessibility
